

Automatic Garage Door Deadbolt SD by Steel-Line

Standard and Premium
Bespoke Garage Doors for
builders and resellers - at
speed.

Automatic locking system for
your Garage Door.

Your garage door is the largest entrance in your home containing important items like cars, bikes and sports equipment. This is why we recommend a Automatic Garage Door Deadbolt SD by Steel-Line. Like a deadbolt on your front door our lock will **lock** your garage door automatically when closed.

Automatic Garage Door Deadbolt SD by Steel-Line

DOOR TYPES: Double or Single Sectional Garage Doors

Make your garage the best place to store your valuable belongings.

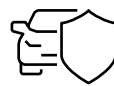

How It Works

The Automatic Garage Door Deadbolt SD by Steel-Line has been designed using advanced technology and will automatically engage when you close your door using your remote control.

The locking pin extends when the door reaches the closed position, providing an additional lock to your garage door.

When opening, the locking pin will automatically retract, disengaging the deadbolt and allowing the door to raise to position.

Key Features

Set and forget. No regular charging or battery changing requirement

High quality, slim, attractive aesthetic enhances its sophisticated design

Effortless installation and integration with the Sprint motor range

Simple disengagement in the event of power failure

Engineered with the latest electronic technology

Hard-wired so no interference commonly experienced with other locks.

NOTE: Compatible with double or single sectional garage doors.

Less. More

We strip away complexity so that you get more - because for us, less is more... more energy, more time, more life!
