

Standard and Premium
Bespoke Garage Doors for
builders and resellers - at
speed.

Mammoth[®] Insulated Garage Door

A smart choice for energy efficiency and
comfort.

With a seamless, smooth fit, Mammoth[®] Modern Insulation provides both thermal and acoustic benefits for your garage. Made from recycled polyester fibres, Mammoth will keep your garage cooler in summer, warmer in winter, reduce noise and can contribute to lower energy bills. This creates a more stable temperature, improving the comfort in your garage, perfect for storage or activities such as a home office, gym or workshop.

INSULATED GARAGE DOOR

Quality features that will stand the test of time

Our Mammoth® Insulated Garage Doors provide insulation from the heat and cold, and are made of first class materials to ensure maximum safety and a long service life. The Mammoth® Insulated Garage Door is constructed with high strength BlueScope steel and retro fitted Mammoth® expanded polystyrene (EPS) laminated panels, finished with an impact resilient vinyl laminate. With a thermal value of R1.09, the garage door insulation minimises the effects of the harsh Australian climate, by reducing heat loss and heat gain transferring through the door panel.

Our Fingersafe safety design is a standard feature for our Colorbond® and UniCote® LUX Sectional Garage Doors. This unique design not only safeguards your family against serious injury, it also seals out elements that can penetrate conventional garage doors.

We can also help you upgrade and insulate your existing garage door by adding a retro fitted Mammoth® Insulation system, which will make your garage more comfortable all year round.

Benefits

- Safe and easy to install
- Will not cause irritation when touched
- Does not give off fumes or odours
- Backed by a 50 year manufacturer's warranty
- Assists in absorbing noise to create a quieter environment
- Eco friendly - made from recycled plastic bottles
- Fully recyclable product
- Fire retardant

Less. More

We strip away complexity so that you get more - because for us, less is more... more energy, more time, more life!
