## 6 reasons to choose Doorworks

At Doorworks, we're true to who we are as authentic makers of quality garage doors.

Genuine durability predominately made from Australian steel. Made for next generation Aussie families.

Flat Woodgrain Sectional door in Colorbond® Night Sky

True blue  
Australian made.

Doorworks supports  
Australian jobs which is  
why our garage doors are  
predominately made with  
high quality Aussie steel.

Doorworks is Sydney born  
and bred helping families  
and businesses since 2012.

Fingersafe Safety design is  
a standard feature for our  
Colorbond® and UniCote®  
LUX Sectional Doors.

Every door is custom  
designed and manufactured  
for your home or business.

Fixed price guarantee -  
a no surprise locked-in  
contract price.

In the vibrant New South Wales landscape, the style and craftsmanship of locally made garage doors stand as a testament to the country's dedication to quality and authenticity.

Australian made garage doors by Doorworks seamlessly blend functionality with aesthetics to elevate both domestic and commercial spaces.

**A statement of design and manufacturing excellence.**

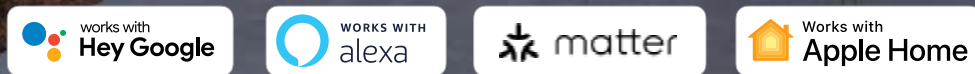

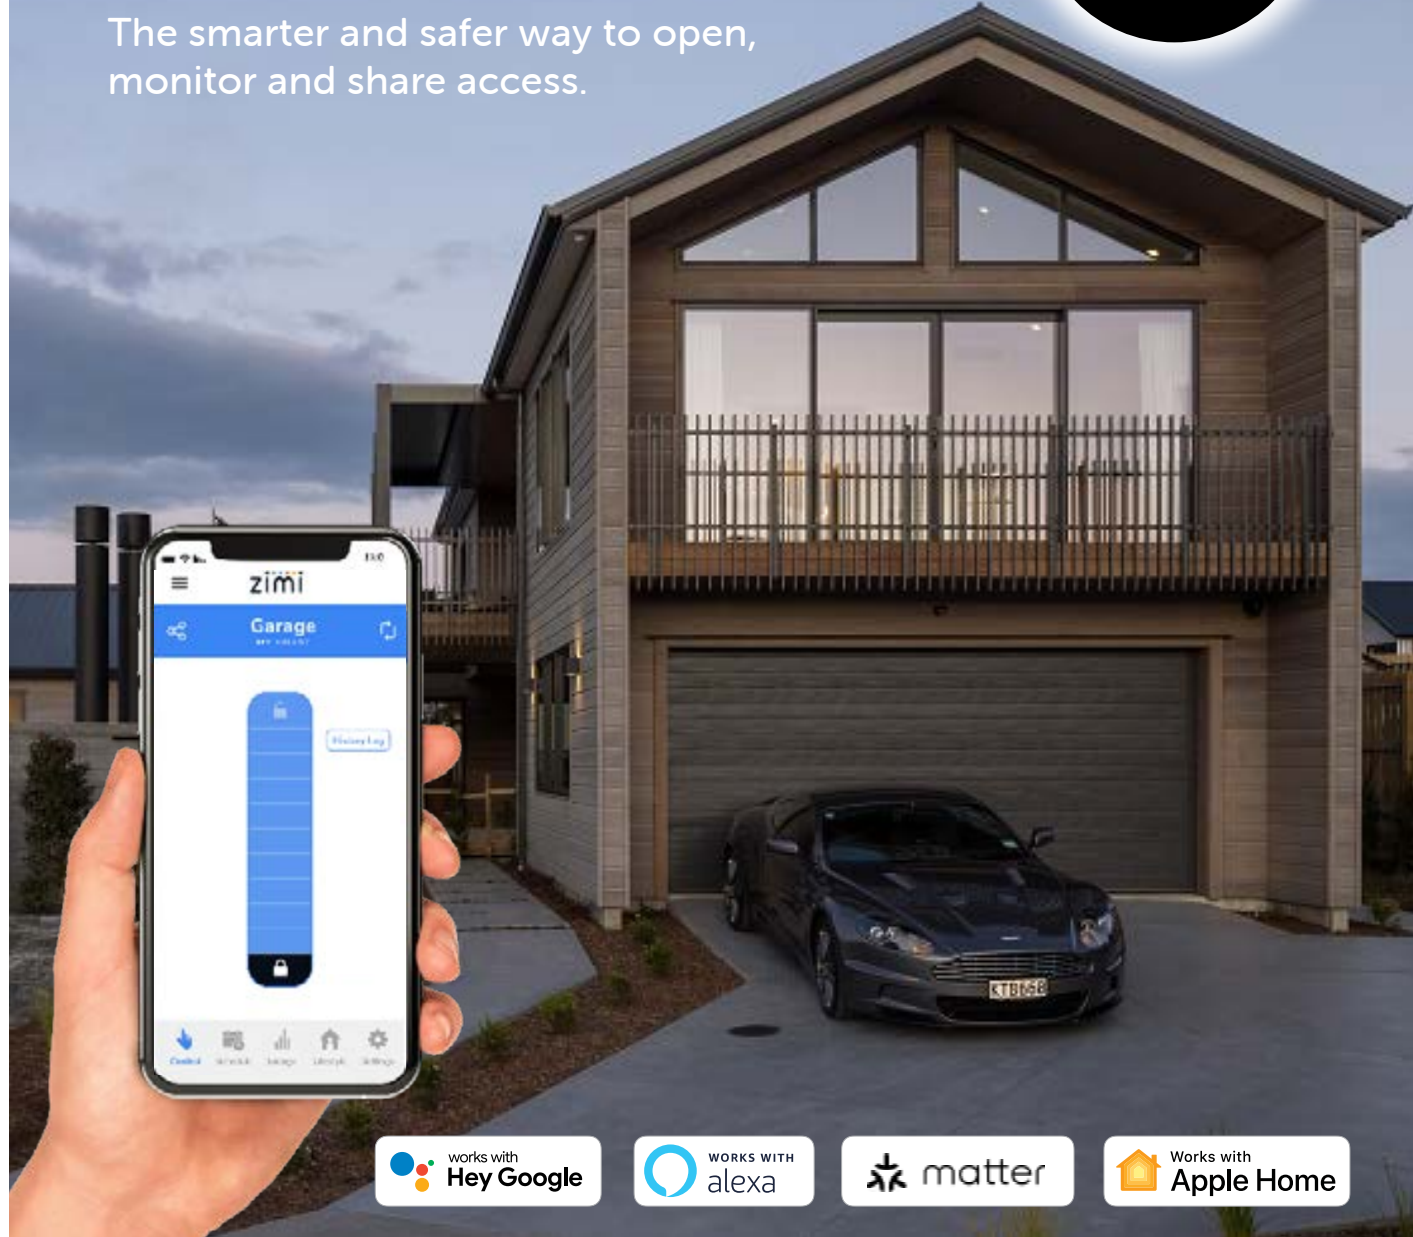

Smooth Flat Panel Sectional Garage Door

Did you know that a garage door dominates about 40% or more of the front façade of most homes?

# Do more with the Smarter Garage Door.

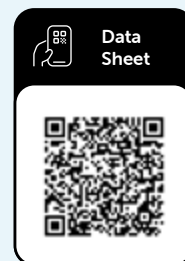

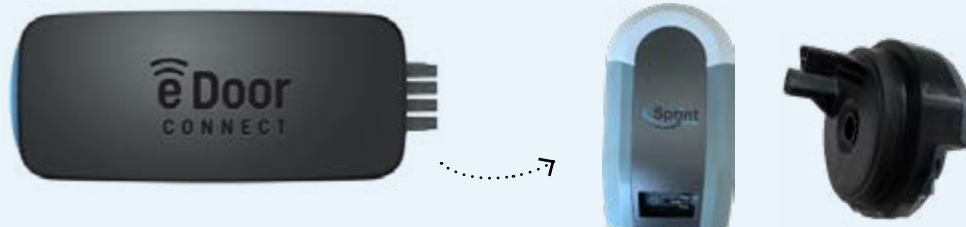

The smarter and safer way to open, monitor and share access.

Requires Zimi Cloud Connect and Wi-Fi Internet connection. Apple Home requires Zimi Matter Connect. Read the data sheet for system requirements.

Just plug it in.

E-Door Connect simply plugs into a compatible door motor. Setup is quick and simple.

- Compatible door motors.
- Product features.
- System requirements.

Anywhere.  
Anytime.

Use your voice,  
watch & phone.

Open the garage door

Did you forget to close the door?  
*No need to worry.*

Accept a delivery every time.  
*Open the door remotely.*

Share access with family and friends.  
*Easier than sharing keys.*

Compatible with Photo Electric Beams.  
*Keep everyone safe.*

Link your door with lighting.  
*Works with smarter switches.*

**Important:** For your safety and the safety of others, we strongly recommend the use of a Photo Electric Beam with your E-Door Connect. A Photo Electric Beam is designed to detect an obstruction while the door closes and sends a signal to the opener to reverse or stop the door movement. If you do not already have Photo Electric Beams installed, please contact your our team for a quotation to have them installed.

Pressed Panel Sectional Garage Door with Colonial Windows, in Colorbond® Surfmist®

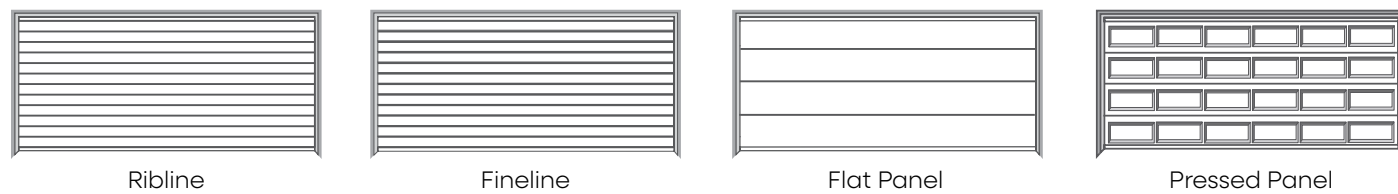

## Woodgrain Colorbond® Sectional Garage Door

Colorbond® is a high-quality, pre-painted steel product renowned for its durability, weather resilience, and modern appeal.

Made from high-strength steel, it includes a zinc coating to guard against corrosion, followed by a primer and a coloured topcoat. This layered coating system offers exceptional long-term performance and resistance to the elements, including UV exposure, moisture and Australia's varied climate.

Our Woodgrain Colorbond® Sectional Garage Doors come in a wide selection of colours and panel styles—such as Ribline, Fineline, Flat Panel and Pressed Panel—adding versatility for architectural designs. Its lightweight yet strong build, along with minimal maintenance needs, makes Colorbond® a preferred choice for both domestic and commercial building projects in the region.

The image, colours and patterns shown are provided as a guide only. Whilst we endeavour to get as close as possible, the limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples and discussing with your sales representative. Additionally, Doorworks reserves the right to vary or delete colours without notice.

Smooth Flat Panel Sectional Garage Door in Colorbond® Surfmist®

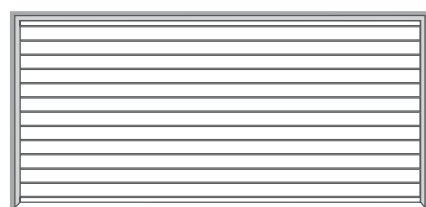

## Smooth Sectional Garage Door

### Stylish, Strong and Durable

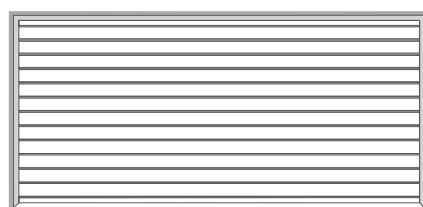

Doorworks' innovative Smooth range offers a flawless finish in a variety of custom door designs. This product is crafted from Colorbond® G300 steel, delivering a remarkably smooth and virtually blemish-free surface.

Shadowing or "oil canning"—the perceived waviness in flat areas of metal panels—is a common characteristic of light gauge, cold-formed metal products, particularly in broad, flat surfaces like garage doors.

# Aluminium Composite

At Doorworks we are dedicated to providing a wide selection of garage door options tailored to the unique needs of Australian households.

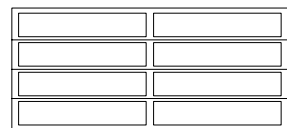

Our range includes Aluminium Composite panels, which, while relatively new in domestic applications, are rapidly becoming a popular choice for homeowners seeking both style and practicality.

Aluminium Composite Garage Doors offer numerous benefits that make them an excellent choice for many Australian homes. These advantages include:

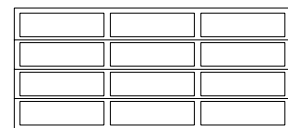

- Lightweight
- Weather resistance
- Vibration absorption
- Negative rebate
- Available in aluminium framed inserts or face fixed designs

## Batten Sectional Garage Door

Batten Sectional Garage Doors are a premium choice for homeowners seeking a combination of sleek design, durability and functionality. The batten design, crafted from high-quality aluminum or steel, offers a modern yet versatile aesthetic, seamlessly complementing both contemporary and traditional architectural styles.

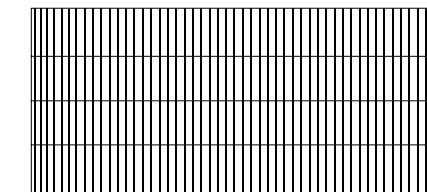

Available in various profiles — including Horizontal and Vertical battens — these doors bring a refined and stylish finish to any property. Custom batten layouts can be mounted on durable aluminum frames to match your home's exterior cladding, creating a cohesive and sophisticated look.

Designed to withstand diverse environmental conditions, Batten Sectional Garage Doors are low-maintenance and engineered for long-term performance, ensuring they remain a lasting and attractive investment for years to come.

### Profile options

Vertical

Contact our sales consultants to explore cladding options and colours available.

## Flush Mount Garage Door

Custom Flush Mount Garage Doors are designed to seamlessly blend with your home's exterior, allowing you to select cladding that matches your façade. This design ensures that the surface of the garage door and the surrounding wall are aligned, resulting in a smooth and cohesive look.

These doors can be finished with a variety of materials, including timber, composite timber, metal, aluminium composite panels and acrylic. This versatility enables the garage door to either integrate with your home's exterior materials for a unified appearance or stand out as a distinctive feature. When closed, the door remains nearly invisible, making it an ideal choice for architecturally designed homes that seek a continuous and harmonious exterior.

The Flush Mount Garage Doors are suitable to take a total weight (frame and cladding) of up to 250kg for Sectional Garage Doors. Doorworks supply the frame only.

**Enhance  
your home.**

Woodtech Steel Sectional Garage Door in Classic Cedar®

**Advantage: Ideal for  
matching your garage door  
colour to your front door!**

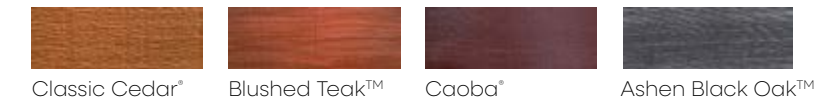

## Woodtech Steel Garage Door

Colorbond® Woodtech Steel Sectional Garage Doors are a versatile and reliable option for homeowners looking for a durable and stylish garage door solution. It's a perfect choice for homeowners wanting to coordinate the colour of their garage door with the front door.

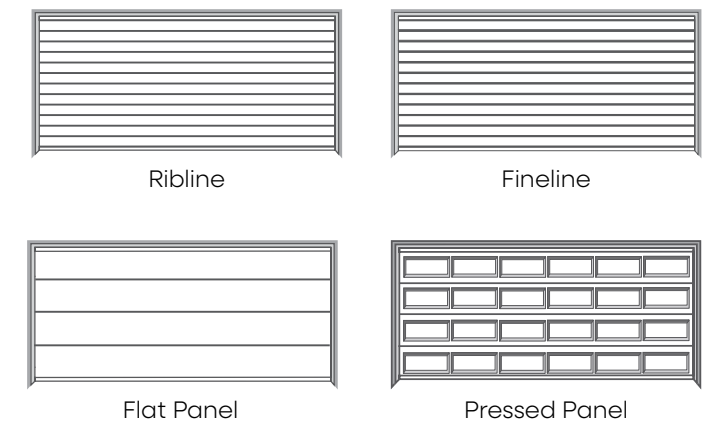

Designed to mimic the look and feel of real timber, Colorbond® Woodtech Garage Doors won't warp, shrink, splinter, or rot like traditional wood.

Despite their durability, they require minimal maintenance, allowing homeowners to focus less on upkeep and more on enjoying their homes and outdoor activities. With weather-resistant features, these doors are built to withstand unpredictable climate without sacrificing performance or appearance.

### Colour options

### Profile options

# UniCote® LUX

## Garage Door

The UniCote® LUX Garage Doors are crafted from an imported pre-painted steel product specifically designed for high-end Australian architecture.

By combining advanced coil coating technology with rigorous testing to meet local standards, these doors are built to withstand all weather conditions and are resistant to chipping, peeling and cracking.

### Built to last

UniCote® LUX features a hot-dipped aluminium/zinc alloy-coated steel substrate. The outer layer consists of a polyester topcoat baked onto a polyester primer, utilising the latest infrared reflective pigments. This creates an exceptionally durable paint system that resists UV damage from Australia's harsh climate, ensuring outstanding colour and gloss retention.

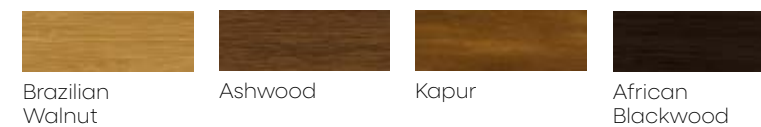

Flat Panel Sectional Garage Door in UniCote® LUX African Blackwood<sup>2</sup>

**Made from a luxury material to suit high-end architecture.**

### Colour Options

#### Timbers of the World Series

#### NOTE:

1. Ashwood has a smooth finish whilst other "Timbers of the World" series have a slightly textured finish. Please see the product samples.
2. The image, colours and patterns shown are provided as a guide only. Whilst we endeavour to get as close as possible, the limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples and discussing with your sales representative. Additionally, Doorworks reserves the right to vary or delete colours without notice.

Smooth Flat Panel Sectional Garage Door in Colorbond® Monument

## Insulation for your Sectional Garage Door

If you're seeking to enhance energy efficiency throughout your home or transform your garage into a home office or gym, consider opting for Mammoth® Modern Insulation for your garage door.

### A smart choice for energy efficiency and comfort.

With a seamless, smooth fit, Mammoth® Modern Insulation provides both thermal and acoustic benefits for your garage. Made from recycled polyester fibres, Mammoth will keep your garage cooler in summer, warmer in winter, reduce noise and can contribute to lower energy bills.

### Before

### Photo Electric Beams

The Photo Electric Beam is designed to detect an obstruction while the door is closing and to send a signal to the opener to reverse or stop the door movement. It helps to protect your family from injury and your car from the damage caused by contact.

### E-Door Connect

The app to control it all. The E-Door Connect Garage Door Controller gives you complete control in the palm of your hands. Enjoy the convenience of connecting your garage today and expand control for everything else tomorrow.

### Emergency Key Release

Used in case of malfunction or power failure, especially useful if there is no other access to the garage.

### Keypad

The Keypad can be programmed with multiple, unique user codes. It is perfect for the family, trades people, or even just going for a walk. This means you can leave your keys at home with peace of mind.

### E-Lock

The Electronic Lock enables remote control and status monitoring. When the door is completely closed, the electronic lock automatically locks. Available as wired or wireless.

### Brush Seal

A tough and durable Brush Seal can help better protect your garage from the elements and satisfies the "Construction of buildings in bushfireprone areas" standard AS3959:2018 for protecting against fire embers entering the garage.

### Battery Backup

A Battery Backup provides an energy supply in the event of a power cut allowing you to still operate your garage door.

### Insulation

Mammoth® Insulated Garage Door not only maintains warmth during winter and keeps things cool in summer it also reduces your energy expenses.

Available on all Sectional Garage Doors.

### Wi Fi

Control your door from anywhere in the world. Simply connect your wifi, download the app on your phone and you can check the status of your door, check what percentage it is open and have full control of its operation.

### Additional Handsets

Key ring remote transmitters are small and convenient with the ability to operate up to four doors from one unit. A must have for every set of keys in the house.

### Smart Camera

Add video services to your garage with a Smart Camera. With 3K HD colour resolution, dualband wifi, cloud storage, motion detection, night vision and two way audio with built in speaker and microphone, you can monitor your garage from anywhere in the world for free.
